## ECONOMIC SCIENCES

Expectations

- Let  $\bar{f}$  be the expectation of each household about what  $f$  will be (i.e. the fraction who will withdraw if  $T = 1$ )
- Suppose  $f = \frac{1}{2}$  - you think half the population is going to withdraw, or 1/3 of the type 2's withdraw earlier than needed
- Is this expectation self-fulfilling? If  $\bar{f} = \frac{1}{2}$ , then:
 
$$\bar{f}^2 = \frac{2(100 - 128\bar{f})}{(1 - \bar{f})100} = 1.44$$
- This is less than what was promised ( $\bar{f}^2 = 1.813$ ), but nevertheless better than what you get for withdrawing today
- So it cannot be optimal for type 2s to withdraw early given this forecast (they're better off waiting), so  $\bar{f} = \frac{1}{2}$  is not self-fulfilling, because even if it is believed by everyone, only  $f = \bar{f} = \frac{1}{2}$  will withdraw, so not an equilibrium
- So  $\bar{f} = f = 1$  is a Nash Equilibrium

## Enrolment

### Overview

There is overall decline of 20.27% in enrolment during 2022-23 across all institutions. However, there is no significant variation in the two schools and four PU Colleges. In fact, the enrolment in MPLPU College has gone up by 10.94% and that of BRSPU College by 17.82%, whereas it has reduced by 7.06% in MES ACS Degree College, by 10.83% in PG departments and by a marginal 3.96% in MES IOM. The broad trends are highlighted below.

- ❖ In our schools at Malleswaram and Vidyananyapura, practically all the seats on offer are being taken up. In Malleswaram, about sixteen seats in nursery and twenty-five seats in high school have gone unfilled.
- ❖ Enrolment in our four PU Colleges has gone up from 3293 in 2021-22 to 3358 in 2022-23 i.e., a rise of 1.97% over the year 2021-22. Enrolment at BRSPU College has increased by 17.82% in 2022-23 followed by MPLPU by 9.06% and KKPU by 0.83% Enrolment in ACSPU College has decreased by 0.67%.
- ❖ Enrolment to BA / BSc / B.Com / UG programmes at MES ACS Degree College has not been encouraging. A total of 1804 (45.86%) have enrolled to various degree programmes in 2022-23 as against 2164 (52.92%) in 2021-22.
- ❖ Enrolment to BA programmes at MES ACS Degree College has fallen slightly from 229 (10.58%) in 2021-22 to 183 (10.14%) in 2022-23. Enrolment to BSc programmes has also not been encouraging. It has dropped from 803 (37.10%) in 2021-22 to 537 (29.76%) in 2022-23.
- ❖ A possible reason for the decrease in admissions to both BA and BSc programmes, is the change in the model from three core subject combination to two core subject combination, being now offered, after the implementation of NEP. Also, the introduction of an 'Open Elective' (OE) paper, which aims at a multidisciplinary approach to learning, that has not been well received by the students. MES ACS Degree College which is affiliated to the Bengaluru City University (BCU), lacks the flexibility of offering academic programmes, unlike the Autonomous Colleges and Deemed Universities.

- ❖ Although, B.Com is the flagship programme at MES ACS College, there was a dip in enrolment to 81.5% in 2022-23 as against 93.25% in 2021-22.
- ❖ Enrolment to BBA programme at IOM has remained almost the same during the last three years at 91%.
- ❖ Another reason for the dip in enrolment at both degree colleges was due to the lack of clarity on admission through the Unified University College Management System (UUCMS) portal rolled out of by Government of Karnataka.
- ❖ Of the two PG programmes, the demand for Mathematics which was 74% in 2021-22 has dropped to 62.50% in 2022-23. The PG programme in Kannada has also dropped from 35% in 2021-22 to 25% in 2022-23.

Data on enrolment is presented in Table 1.1

### Category-wise Enrolment

Data on category-wise enrolment for the last two years i.e., 2021-22 and 2022-23 is presented at Table 1.2. Enrolment of students during 2022-23 belonging to Scheduled Caste (SC) and Tribe (ST) has been stable as was in 2021-22 just under 1,000 and 200 respectively. In percentage terms, this works out to around 10.80% and 1.20% respectively. For the first time data on the enrolment of students belonging to the OBC category was analysed separately. Enrolment under the OBC category has been almost at the same level in 2021-22 and 2022-23 i.e., at 57.53 & 56.26 respectively.

### Gender Balance

As in 2021-22 KKPS has maintained an even balance between girls and boys during 2022-23, while in KK, the ratio is more like 41:59. The four PU Colleges have maintained at 50:50 presence of girls and boys in the aggregate. The girls-boys balance in the UG programmes at the two Degree Colleges which was 47:53 in 2021-22 has enhanced to 49:51 in 2022-23. Details are in Table 1.3.

## Chapter 2

### Academic performance during 2022 - 23

Analysis of the data on the academic performance of students of the two schools in 2021-22 and 2022-23 reveals that the average pass percentage is 98.40%. The pass, distinction and I class percentages during 2022-23 is 97.62%, 53.98% and 38.94 respectively as against 99.19%, 68.69 and 26.82% in 2021-22.

As regard PU colleges, the average pass, distinction and I class percentages in 2022-23 is 93.68%, 39.66% and 45.35% respectively and that of 2021-22 is 81.07%, 29.4% and 46.26% respectively. A comparison of the data of 2022-23 and 2021-22 shows a significant rise in distinction and I classes in 2022-23 and a marginal decrease in the I class percentage across all categories of passed students.

As regards the two Degree colleges, result analysis could not be made since the final year degree examinations of all colleges affiliated to the Bengaluru City University are yet to be completed. This will be reported in the Annual Report of 2023-24.

The abstract of comparative academic performance of students in the two Schools and four PU Colleges in the last two years is presented in Table 2.1 and the category wise performance of Schools are presented in Tables 2.2 & 2.3, PU Colleges in Tables 2.4 to 2.7.

## Academic Performance in Schools

The two schools, Kishora Kendra High School (KKHS) and Kishore Kendra Public School (KKPS) have achieved 96.37% and 98.86% results respectively in 2022-23, as compared to 98.76% and 100% in 2021-22. The institution wise and category wise analysis are presented in Tables 2.2 and 2.3.

KK High School achieved 96.38% results in 2022-23. Of the 138 students who appeared for the examination, 133 students have passed of which 83 are boys and 50 are girls. Out of these 133 students, 58 passed in distinction (1-SC & 1-ST), 66 in I Class (6-SC & Nil-ST) and 7 in II Class (Nil -SC & Nil-ST). Also, 18 students scored centum in various subjects.

Nevertheless, it is disheartening that no student of KK High School stands in the top 10 position in the State Level Board Examinations of 2022-23.

### 5.1 Continuous Professional Development (CPD)

The Management at MES has always aimed to achieve and sustain quality education by undertaking relevant qualitative and quantitative exercises from time to time. In this direction, the up-skilling of teachers has been identified as one of the core requirements. Among other measures required to meet this objective, the need for training of teachers across all MES Institutions through a CPD programme, has been identified.

After several rounds of internal discussions, and external enquiries made to ascertain the credibility and effectiveness of several service providers who offer such training programmes, one M/s. Educafe Students Solutions PVT Ltd was shortlisted.

Multiple meetings and interactions with Educafe were held, including detailed presentations regarding their expertise/strengths in the area of teacher training. On being satisfied of their ability to deliver, an MOU was signed between MES and Educafe on 16.06.2022.

The phase-I of the training programme was held from 20.06.2022 to 30.07.2022. 230 teachers of both schools and four PU Colleges attended the programme in 12 batches.

Following this, a feedback was collected from all the institutions and analyzed in order to identify the gaps and also to facilitate the realistic implementation of the 'learnt modules' during the teaching-learning process in the classrooms. Towards this, interactive sessions of the training were held between 04.11.2022 and 26.11.2022 for both Schools and PU Colleges.
